

**1.0 PRODUCT NAME**

BERGER Snow Meister **SL-1** Snow Guard

**2.0 MANUFACTURER**

Berger Building Products, Inc  
 805 Pennsylvania Blvd.  
 Feasterville, PA 19053

**3.0 DESCRIPTION**

**Basic Use:** BERGER Snow Meister **SL-1** Snow Guard is a device designed for the prevention of damage caused by the sliding of snow and ice on standing seam metal roofs.

**Limitations:** BERGER Snow Meister **SL-1** Snow Guard is designed to accommodate a single lock T seam roof 1.0" Deep x .575" wide Symmetrical design rotates 180 degrees to match seam lock orientation. Suited for is suited for light gauge sheet metals such as 40lb terne, 26 gauge galvanized, lead coated copper and TCS.

**Finish Styles:** BERGER Snow Meister **SL-1** Snow Guards are manufactured in three finishes: Mill Finish, Primer Finish, and Custom Color Finish. The mill-finished is an unpainted aluminum casting. The primed is E Coated using a Cathodic Electro Deposition process. The CED Epoxy primer has a black color and extended shelf life that can be top coated by contractors with a wet or dry paint system. This primer must be top coated prior to installation. BERGER will also provide the **SL-1** in a custom color finish. Imron® polyurethane enamel paint is used for the custom color finish and can be matched to virtually any non- metallic paint finish.

**4.0 INSTALLATION**

**Preparation**

**Determining Proper Torque**

Torque will vary depending on the type and gauge of the metal roof. The recommended method for determining proper torque is to install one unit first. After tightening the stainless steel set screws, loosen and remove the unit, inspecting the indentations created in the seam to see that the proper compression was obtained.

**Application**

**Snow Guard Placement**

Snow Guard placement will vary from region to region. Roof pitch, as well as lengths of runs and seam spacing influence the layout. Local custom may not be the best guide as to placement. Additional recommendations can be found in SMACNA and other industry standards. BERGER can provide free custom layout design. Ultimately, placement should be determined by a qualified design professional.
