QA

NEW AND IMPROVED VERSIWELD® QA TPO ROOFING SYSTEM WITH PRE-APPLIED ADHESIVE

VersiWeld QA (Quick-Applied) TPO offers a new and improved QA adhesive formulation that provides superior adhesion, preventing membrane expansion. The end result is a finished rooftop without wrinkles.

VersiWeld QA TPO combines the energy efficiency and durable characteristics that VersiWeld TPO consistently provides with the easiest, quickest and most consistent TPO installation in the industry. Eliminating solvents makes installation environmentally friendly and odor free, which is key for hospitals, nursing homes, schools and other buildings that house sensitive tenants. Tenants also endure less disruption thanks to quicker, less noisy and VOC-free installations.

Features and Benefits

- Fully adhered TPO performance characteristics
- Enhanced by OctaGuard XT™ Weathering Package
- White VersiWeld QA is ENERGY STAR®* qualified and Title 24 compliant
- FM, UL and CRRC rated
- No membrane fluttering
- Unique double-sided release liner will not stick to adhesive after removal
- A full line of Certified Fabricated Accessories are available
- Environmentally friendly – no solvents or VOCs

SAVE TIME AND LABOR

By eliminating the need to apply bonding adhesive and the time it takes to flash off, it is easy to see how VersiWeld QA can save considerable time and labor. In addition, subtract the time and effort it takes to get bonding adhesive on and off of the jobsite and the savings can really add up.

EASIER TO INSTALL

By eliminating the need for traditional bonding and the moisture that can be trapped under the membrane if it hasn't flashed off completely, using VersiWeld QA can result in less blistering.

CONSISTENT QUALITY

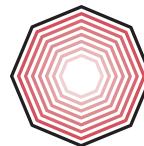

By providing a factory-applied adhesive, VersiWeld QA delivers a consistent quality adhesive across the membrane. The pre-applied bonding adhesive also eliminates the need to monitor bonding coverage rates.

ENVIRONMENTALLY, APPLICATOR AND OCCUPANT FRIENDLY

By eliminating the fumes associated with bonding adhesive, the disposal of the bonding adhesive cans after the project is complete, and the ability to allow building occupants to be undisturbed, VersiWeld QA is a perfect solution especially for re-roofing projects.

CONSISTENT QUALITY

Versico's Certified Fabricated Accessories are the only factory-fabricated TPO accessories that meet the stringent quality tolerances required to be included in a Versico warranted roofing system.

OCTAGUARD XT WEATHERING PACKAGE

Versico has been at the forefront of TPO development for more than 15 years and continues to lead the industry with the implementation of its high-performance OctaGuard XT weathering package that is incorporated into VersiWeld membrane and accessories. OctaGuard XT weathering package technology is comprised of eight performance-enhancing ingredients, including three heat-stabilizing antioxidants and three UV light stabilizers as well as organic and inorganic UV absorbers. When combined, these eight ingredients provide a weathering package second to none in the TPO industry.
